

GCV Green Network Partnership Review East Renfrewshire

Our Vision is of a transformed environment which improves lives and communities and lets business flourish.

Adding Value in East Renfrewshire by:

Delivering Outcomes	Generating Value for Money	Demonstrating Good Practice	Providing & Sharing Expertise
---------------------	----------------------------	-----------------------------	-------------------------------

DELIVERING OUTCOMES

Through the Community Planning Partnership process, the GCV Green Network Partnership delivers benefits which strongly reflect National Outcomes and thereby Local Outcomes in Single Outcome Agreements. They are:

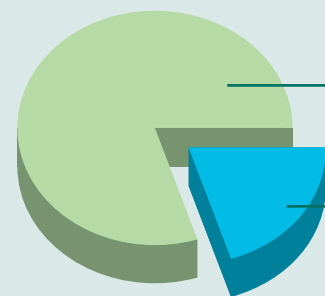

- **Stronger Communities**
- **Health Improvement**
- **Biodiversity & the Environment**
- **Enterprise Development**

The Partnership has influenced public policy through its strategic regional work programme. The GCV Green Network will be a major contribution to the delivery of a Central Scotland Green Network, a 'National Development' in the Scottish Government's second National Planning Framework, and will be a foundation stone of the emerging Strategic Development Plan.

GENERATING VALUE FOR MONEY

TOTAL INVESTMENT IN EAST RENFREWSHIRE'S GREEN NETWORK

Our Partnership generates value for money. In East Renfrewshire 2 Green Network projects have been developed. The projects are the first stage in guiding delivery of the Green Network.

Total investment in East Renfrewshire Green Network projects: **£50,000***

Contribution from East Renfrewshire Council: **£10,000**

EAST RENFREWSHIRE GREEN NETWORK PROJECTS:

- Sowing & Growing Everywhere (SAGE)
- Auchinback Health project

In 2009/2010 East Renfrewshire Council also contributed £5,340.07 to the Partnership's core funding of £300,000.

DEMONSTRATING GOOD PRACTICE: PROJECT EXAMPLES

AUCHENBACK HEALTH PROJECT

The Auchenback Health project has:

- Identified actions to overcome barriers to accessing the Green Network
- Supported funding bids ie Smarter Choices

Value for money:

Total investment: **£18,000**

Council's contribution: **£10,000**

SOWING & GROWING EVERYWHERE (SAGE)

The SAGE project is:

- Identifying community-led growing opportunities
- Developing a demonstration site in East Renfrewshire (by 2011)

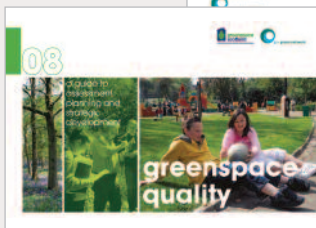

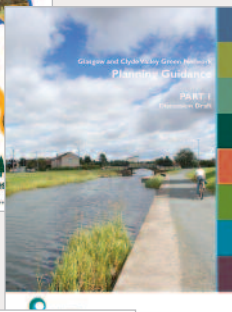

Value for money:

Total investment: **£32,000**

Council's contribution: **£Nil**

PROVIDING & SHARING EXPERTISE

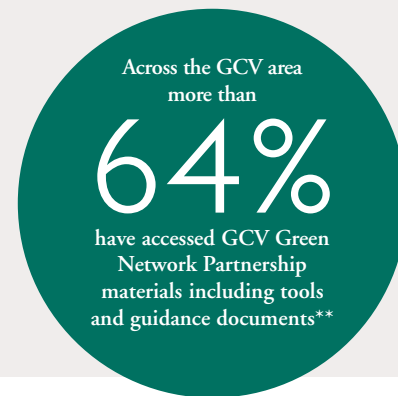

The Partnership is developing a suite of nationally recognised strategic tools & guidance materials. The effectiveness and efficiency of partner activity can only be enhanced through the development of such robust procedures and best practice.

Examples of such activity includes:

- Integrated Habitat Networks Model
- Planning Guidance
- Quality Guidance
- Funding & Management Guidance
- Vacant and Derelict Land Survey

Total investment in the development of these tools and guidance to date has been £624,388 with funding provided by 10 agency partners.

To find out more about the Glasgow & Clyde Valley Green Network Partnership visit www.gcvgreennetwork.gov.uk or telephone 0141 229 7746.

*Projects relevant to East Renfrewshire commissioned between 2006 and November 2009
