

# GCV Green Network Partnership Review Glasgow

Our Vision is of a transformed environment which improves lives and communities and lets business flourish.

Adding Value in Glasgow by:

Delivering Outcomes	Generating Value for Money	Demonstrating Good Practice	Providing & Sharing Expertise
---------------------	----------------------------	-----------------------------	-------------------------------

## DELIVERING OUTCOMES

Through the Community Planning Partnership process, the GCV Green Network Partnership delivers benefits which strongly reflect National Outcomes and thereby Local Outcomes in Single Outcome Agreements. They are:

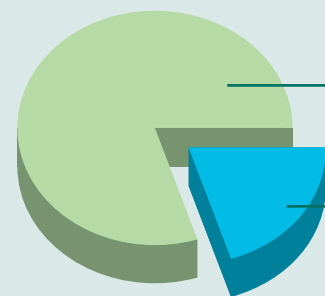

- **Stronger Communities**
- **Health Improvement**
- **Biodiversity & the Environment**
- **Enterprise Development**

The Partnership has influenced public policy through its strategic regional work programme. The GCV Green Network will be a major contribution to the delivery of a Central Scotland Green Network, a 'National Development' in the Scottish Government's second National Planning Framework, and will be a foundation stone of the emerging Strategic Development Plan.

## GENERATING VALUE FOR MONEY

### TOTAL INVESTMENT IN GLASGOW'S GREEN NETWORK

Our Partnership generates value for money. In Glasgow 19 Green Network projects have been developed. The projects are the first stage in guiding delivery of the Green Network.

Total investment in Glasgow Green Network projects: **£905,783\***

Contribution from Glasgow City Council: **£189,000**

### GLASGOW GREEN NETWORK PROJECTS:

- Sowing & Growing Everywhere (SAGE)
- Sustainable Urban Drainage Systems (SUDS) & the Green Network
- Clyde Gateway Green Network Strategy
- Clyde Gateway Access Bridgeton
- Clyde Gateway River Access
- Clyde Gateway Access Industrial Areas
- Clyde Gateway: Woodland Survey
- Gartloch/Gartcosh Green Network Strategy
- Gartloch/Gartcosh: Hydrology Study
- Gartloch/Gartcosh: Development Guidance
- Clyde Waterfront Green Network Strategy
- Clyde Waterfront Green Network Strategy: Update
- River Clyde Access
- Social Housing & Regeneration (Milton)
- North Glasgow Open Space Framework

- Greenoakhill
- Branching Out
- River Clyde Biodiversity

In 2009/2010 Glasgow City Council also contributed £70,000 to the Partnership's core funding of £300,000.

## DEMONSTRATING GOOD PRACTICE: PROJECT EXAMPLES

### CLYDE GATEWAY GREEN NETWORK

The Clyde Gateway project has:

- Informed masterplanning in South Dalmarnock
- Contributed to legacy plans for Glasgow 2014

#### Value for money:

Total investment: **£189,727**

Council's contribution: **£5,000**

### SUDS & THE GREEN NETWORK

The SUDS project is:

- Developing concepts for exemplar SUDS
- Informing regeneration and masterplanning

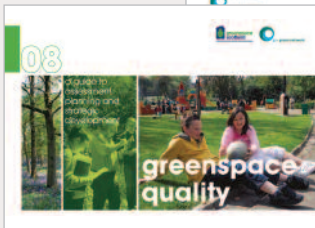

#### Value for money:

Total investment: **£193,500**

Council's contribution: **£30,000**

## PROVIDING & SHARING EXPERTISE

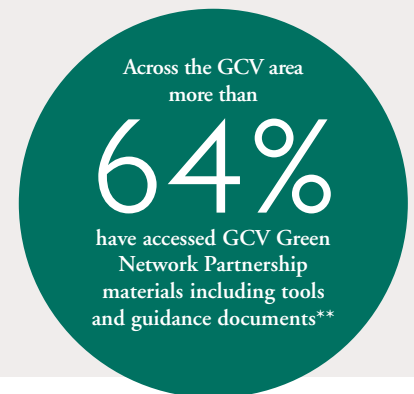

The Partnership is developing a suite of nationally recognised strategic tools & guidance materials. The effectiveness and efficiency of partner activity can only be enhanced through the development of such robust procedures and best practice.

Examples of such activity includes:

- Integrated Habitat Networks Model
- Planning Guidance
- Quality Guidance
- Funding & Management Guidance
- Vacant and Derelict Land Survey

Total investment in the development of these tools and guidance to date has been £624,388 with funding provided by 10 agency partners.
