

GCV Green Network Partnership Review West Dunbartonshire

Our Vision is of a transformed environment which improves lives and communities and lets business flourish.

Adding Value in West Dunbartonshire by:

Delivering Outcomes	Generating Value for Money	Demonstrating Good Practice	Providing & Sharing Expertise
---------------------	----------------------------	-----------------------------	-------------------------------

DELIVERING OUTCOMES

Through the Community Planning Partnership process, the GCV Green Network Partnership delivers benefits which strongly reflect National Outcomes and thereby Local Outcomes in Single Outcome Agreements. They are:

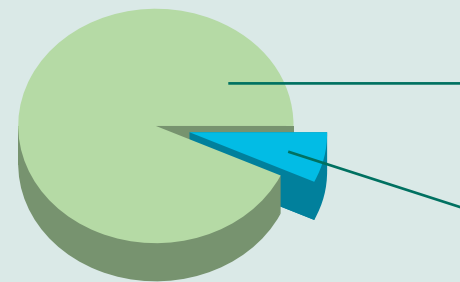

- **Stronger Communities**
- **Health Improvement**
- **Biodiversity & the Environment**
- **Enterprise Development**

The Partnership has influenced public policy through its strategic regional work programme. The GCV Green Network will be a major contribution to the delivery of a Central Scotland Green Network, a 'National Development' in the Scottish Government's second National Planning Framework, and will be a foundation stone of the emerging Strategic Development Plan.

GENERATING VALUE FOR MONEY

TOTAL INVESTMENT IN WEST DUNBARTONSHIRE'S GREEN NETWORK

Our Partnership generates value for money. In West Dunbartonshire 7 Green Network projects have been developed. The projects are the first stage in guiding delivery of the Green Network.

Total investment in West Dunbartonshire Green Network projects: **£186,043***

Contribution from West Dunbartonshire Council: **£13,500**

WEST DUNBARTONSHIRE GREEN NETWORK PROJECTS:

- Sowing & Growing Everywhere (SAGE)
- Clyde Waterfront Green Network Strategy
- Clyde Waterfront Green Network Strategy: Update
- River Clyde Access
- Glasgow Canal Green Network Strategy & Environmental Framework
- River Clyde Biodiversity
- Strathleven Corridor Green Network Study

In 2009/2010 West Dunbartonshire Council also contributed £5,449.55 to the Partnership's core funding of £300,000.

DEMONSTRATING GOOD PRACTICE: PROJECT EXAMPLES

CLYDE WATERFRONT GREEN NETWORK

The Clyde Waterfront project is:

- Identifying development priorities and actions to improve strategic greenspaces
- Improving walking and cycling connections

Value for money:

Total investment: **£50,000**

Council's contribution: **£Nil**

STRATHLEVEN CORRIDOR

The Strathleven Corridor project is:

- Supporting regeneration
- Identifying development priorities and actions

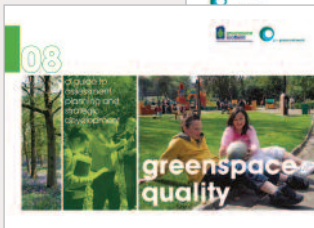

Value for money:

Total investment: **£30,000**

Council's contribution: **£10,000**

PROVIDING & SHARING EXPERTISE

The Partnership is developing a suite of nationally recognised strategic tools & guidance materials. The effectiveness and efficiency of partner activity can only be enhanced through the development of such robust procedures and best practice.

Examples of such activity includes:

- Integrated Habitat Networks Model
- Planning Guidance
- Quality Guidance
- Funding & Management Guidance
- Vacant and Derelict Land Survey

Total investment in the development of these tools and guidance to date has been £624,388 with funding provided by 10 agency partners.

To find out more about the Glasgow & Clyde Valley Green Network Partnership visit www.gcvgreennetwork.gov.uk or telephone 0141 229 7746.

*Projects relevant to West Dunbartonshire commissioned between 2006 and November 2009
